**H**AVING been attacked for the third time with Inflammatory Rheumatism, which kept me in bed six weeks under medical care, without relief, I resolved to try Burdock Blood Bitters, and before I finished the third bottle I was able to work again."

**Dangerous Counterfeits.**  
Counterfeits are always dangerous, more so than they are in the case of medicine, because they always closely imitate the original in appearance and name. The remarkable success achieved by Nasal Balm as a positive cure for Catarrh and Cold in the Head has induced unprincipled parties to imitate it. The public are cautioned

to be deceived by nostrums imitating Nasal Balm in name and appearance, bearing such names as Nasal Cream, Nasal Ointment, etc. Ask for Nasal Balm and do not take any imitation dealers may urge upon you. For sale by all druggists without post-paid on receipt of price (60c and 75c) by addressing Fulford & Co., Brockville, Ont.

**A PLEASANT DISCOVERY.**  
SUFFERED with neuralgia and obtained no relief until advised to try Hagar's Yellow Oil. Since then I have found to be an admirable remedy also for burns, sore throat and rheumatism.  
MRS. F. CAMERON, 187 Richmond St. E., Toronto, Ont.

If we were allowed to look into the future and see the fatal consequences that follow a neglected cold, how differently would our course be; could we realize our danger, how speedily we would seek a cure; but with many it is only when the monster disease has fastened its fangs upon your lungs that we awaken to our folly. What follows a neglected cold? Is it not diseases of the throat and lungs, bronchitis, asthma, consumption, and many other diseases of like

ture. It is worse than madness to neglect cold, and it is folly not to have some remedy available for this frequent complaint. One of the most efficacious medicines for all diseases of the throat and lungs, is Hickle's Anti-Consumptive Syrup. This medicine is composed of several medicinal herbs, which exert a most wonderful influence in curing consumption and other diseases of the lungs and chest. It promotes a free and easy expectoration, soothes irritation and drives the disease

*Chronic Derangements of the stomach, Liver and Blood*, are speedily removed by the active principle of the ingredients entering into the composition of **Farmalee's Vegetable Pills**. These Pills act specifically on the deranged organs, stimulating to action the dormant energies of the system, thereby removing disease, restoring life and vitality to the affected individual.

Chronic Derangements of the stomach, Liver and Bowels are speedily removed by the action of the principle of the ingredients entering into the composition of **Parmalee's Vegetable Pills**. These Pills act specifically on the derangement of the Liver and Bowels, the organs of the digestive system, thereby removing disease, renewing life and vitality to the affected organs, and thus the great source of the population of the world.

As **PARMALLEE'S VEGETABLE PILLS** contain senna and dandelion, they cure Liver and Kidney Complaints with unquestionable certainty; they also contain Roots and herbs which have specific virtues truly wonderful in their action on the bowels. (See the following list of names.) Shakespeare, writes; "I consider Parmalee's Pills an excellent remedy for Biliousness."

**ADVICE TO MOTHERS.**—**MRS. WISLÖW** says that **STEARNS** should always be used when children are cutting teeth. It relieves the pain, soothes the inflamed gums, and keeps the child from suffering at once; it produces natural, quiet sleep, and is the best remedy for teething.

My special of Mother Graves' Worm Elixir will convince you that it has no equal as a worm medicine. Buy a bottle, and see it does not disappoint you.

**Worms to Mamma.**—Mrs. Winslow writes: "I have always been a mother who has seen her children are cutting teeth. It relieves the little sufferer at once; it produces natural, quick sleep by relieving the child from pain; and it is pleasant to taste. It is twice the strength of the gum, always all pain, relieve a child, and it is the best I know of for the relief of diarrhea, teething troubles, or other ailments. Twenty-five cents a bottle. Write for free trial. Mrs. Winslow's SCOTCH WHISKY, and take no other kind. Sdwin."

**MR. ROSS "COMES DOWN."**

Evidence of the untruthfulness of the statements made by the Minister of Education to the public schools in the French districts of the Province, and of the efforts of Opposition criticism on the effects of affairs alleged by them and Mr. Ross, is furnished by the issue of a set of instructions issued by the Minister of Education to teachers and trustees of those schools in which French and German have been taught in different parts of the Province. We avail ourselves of a summary of the official document which is published in the Globe.

The subjects dealt with in the circular are (1) text books, (2) the use of the French language, (3) the use of the English language, and (4) the use of the French language. The circular is a perfect intelligence, and gives new life to the system, and cures all ailments of the head, nerves, and stomach. It is a perfect intelligence, and gives new life to the system, and cures all ailments of the head, nerves, and stomach.

The Minister directs that all untruthful statements be removed at once from the schools; that the use of all heretofore authorized be continued until the close of next year; and that after that date all schools must use only those materials in the instruction. There are three English-French readers, the first being divided into two parts, like the English First Reader; and there is a book which may be used alternately with the English Fourth Reader, and which purports to deal with general and common knowledge.

The provision made for the better training of French teachers, both professionally and non-professionally, is fully described. A few weeks ago a successful institute was held for several days in the interests of the teachers of French and English. The conductors of it being pedagogical experts, well-known ability and reputation. The circular announces that similar institutes will be held annually, each lasting a week. Provision is to be made for special training for those who are preparing to enter the profession for countries where there is a scarcity of teachers qualified to teach in the English language—the Model School will give two sessions of instruction each, and will give non-professional as well as professional training. And, while there will be special examinations to test candidates' knowledge of French, it is provided that the final examination shall be in English, and that the candidate who is successful shall be "conducted in the English language." Henceforth, therefore, no candidate will be allowed to enter the teaching profession or take charge of a school who cannot both teach English and French in English.

In following the course of study herein prescribed, the greater part of the pupils in the first and second forms will be occupied by colloquial exercises, and in learning to read French and English. The course of study will be such as to enable the pupils to attain a sufficient knowledge of English to be sufficient to enable them to use the English language in the ordinary transactions of life. The course of study will be such as to enable the pupils to attain a sufficient knowledge of English to be sufficient to enable them to use the English language in the ordinary transactions of life.

## THE HUNTED STEAMER.

It now appears that the fifth victim of the Quinte disaster was George Robertson of Picton, as given in yesterday's account of the affair, but that the name of the party is George Ward, of Picton, who is missing.

The body of the boy Douglas Stacey, which was recovered yesterday, was found near the wreck, and it was believed that he had been drowned. The body was prepared for burial and was sent to his late home in Toronto. The mother of the other missing Captain was continued to day, but at noon the rescue had not been effected. The missing Captain was believed to be in the wreck, which with his other goods was lost. He was said to have been at the hands and face.

The hull of the boat lost at the storm is about twenty feet in water, while the boat is entirely out of water. The machinery will be taken out as soon as possible.

By telephone this afternoon it was learned that there is now little doubt that a man named Ward perished in the disaster. He had a wife and three children and resided at Picton.

"I HAD such distress in my stomach and head that I thought I would lose my reason, but by trying Burdock Blood Bitters I have gained great benefit. I have used three bottles and am now as well as I ever was in my life. Thanks to your medicine."

Take No Chances.

BUT depend on solid facts. Nothing equals Hagar's Yellow Oil for burning scales, frost bites, chilblains, neuralgia, eczema, and all skin diseases, and of every description. No matter where the pain or soreness is, or from what it arises, Hagar's Yellow Oil will give quick relief.

If you feel languid and listless, try Northrup & Lyman's Vegetable Discovery, and you will find it one of the best preparations for such complaints. It is a most valuable medicine, and a severe illness such headache which troubles him for a time.

**Dangerous Counterfeits.**

Counterfeits are always dangerous, more so when they always closely imitate the ORIGINAL IN APPEARANCE AND NAME. The remarkable success achieved by Nasaal Balsam as a positive cure for Catarrh and Cold in the Head has induced unprincipled parties

not to be deceived by nostrums imitating Nasal Balm in name and appearance, bearing such names as Nasal Cream, Nasal Ointment, etc. Ask for Nasal Balm and do not take any imitation dealers may urge upon you. ### Dangers of Delay.

If we were allowed to look into the future and see the fatal consequences that follow a neglected cold, how differently would our course; could we realize our danger, how speedily we would seek a cure; but with many it is only when the monster disease has fastened its fangs, that we realize the danger.

that removes a neglected cold? Is it not due to the throat and lungs, bronchitis, asthma, consumption, and many other diseases of the chest? It is worse than madness; neglect a cold, and it is folly not to have some good remedy available for this frequent complaint. One of the most efficacious medicines for a cold of the throat and lungs, is Bickel's Anti-consumptive Syrup. This medicine

Chronic Derangements of the stomach, Liver and Blood, are speedily removed by the action of this medicine. The principle of the ingredients entering into its composition, soothes irritation and drives the disease from the system.

These Pills act specifically on the deranged organs, stimulating to action the dormant strength of the system, thereby removing disease and renewing life and vitality to the afflicted. In this lies the great secret of the popularity of Parmelee's Vegetable Pills.

AS PARMELEE'S VEGETABLE PILLS contain senna and dandelion, they cure Liver and

They also contain Roots and herbs which have specific virtues truly wonderful in their action on the stomach and bowels. Mr. E. A. Cairnes, Shakespeare, writes; "I consider Parry's Pills an excellent remedy for Biliousness and Derangement of the Liver having used them myself for some time."

ADVICE TO MOTHERS.—MRS. WINGLOW  
SAYS SYRUP should always be used when  
children are cutting teeth. It relieves the  
sufferer at once; it produces natural, quiet  
sleep by relieving the child from pain, and the  
little cherub awakens as "bright as a button."  
It is never pleasant to feel the throat sore.

## THOSE NEW REGULATIONS.

When Minister Ross read the report of the Public Commission on Public Schools in Eastern Ontario, he must have felt like the criminal when the jury found "Not guilty, but don't do it again."

The Globe had strong objections formerly to immigration from Ireland. It said Irish Catholics settle in any numbers in this Province and we will have a second Connaught, another Quebec. No roads, no schools, no progress. It did not dream then it would be defending later on, an Ontario ministry for winking at the Quebec system of education for the Province.

The rule of the English language was looked on with contempt by the Norman French barons, in the reign of Richard First. What a successful minister Ross would have made under the Plantagenets!

Why not permit the Polish language in the public schools of Renfrew? There are a large number of Poles in that county, and two girls represent it at Toronto. If they continue to support Morav and "good" government, there is no reason why they should not teach the language of Kościuszko in preference to English in the public schools, if other people who speak foreign tongues are to be accorded a like privilege.

## EDUCATIONAL REFORMS.

We are approaching a revolution in the methods of popular education. A new era of scholastic training is being ushered in, and there are ominous signs of preparation for the change. The Century number of the Century Magazine contained three or four excellent papers dealing with this important subject, and their contents fairly illustrate the drift of public opinion in the United States on this and cognate matters. There is evidently a wide-spread dissatisfaction with prevailing methods, and responsible authorities must govern their actions accordingly. This dissatisfaction is not confined to the United States. In England and in Canada similar agitation is gaining strength. It is claimed, and with a good show of reason, that the Anglo-Saxon race are supporting a system of popular education, the Century number of the Century Magazine contains a purely theoretical education is not to be despised. It is a desirable qualification, but, unless supplemented by something practical, it falls far short of the desired purpose. In one of the Century papers referred to, Francis Newton Thorpe offers an able "plan in

The Head of Camp 20 Will Go on the Stand if Necessary—Yesterday's Evidence in the Criminal Trial.

CHICAGO, Oct. 29.—At the opening of the Criminal Trial of yesterday, the witness, William D. The article on the Behring sea dispute by President J. B. Angell, an Arab Unitarian, in the new issue of the Forum has attracted considerable attention. Mr. Angell ably supports the Canadian contention, and this, coming from a staunch supporter of the present Administration at Washington, is noteworthy. "He takes the ground that Behring sea is not a closed area, and quotes several international authorities on the point. He also states that the United States has operated in Behring sea without let or hindrance from the Russian Government, which he holds to be conclusive proof that Russia never considered Behring sea more than a common highway."

## Vacant Farms in Vermont.

The Vermont commission of agricultural lands, which has been organized, has issued a statement noting more in detail the location, character and prices of vacant farms in Vermont. It is stated that in this way the attention of individuals of small means is attracted to the state, and that the state is a more desirable place to live in. It is also stated that the state is a more desirable place to live in.

In the town of Reading, for example, there are four thousand acres of contiguous farms, which have been bought for \$100,000, and are now being sold for \$100,000. It is also stated that the state is a more desirable place to live in.

It is noted that in Jamaica, Windham county, a farm of 200 acres, with good buildings, sugar orchard and plenty of timber, which is listed at \$100,000, is now being sold for \$100,000. It is also stated that the state is a more desirable place to live in.

When President T. H. McPherson of the South Ontario Electric was asked what he thought of the action of the City Council in rejecting the Finance Committee's recommendation to employ an expert on railway routes and relegating the matter to the city engineer, Mr. McPherson said: "In view of the fact that the City Council is rejecting a speedy settlement of the question it is quite within the possibilities that the C. P. R. will leave Hamilton out of its calculations altogether and construct a through line from Toronto to Niagara Falls by way of Niagara Falls."
